Professional Summary

Results-driven Software Developer with 3+ years of experience designing, building, and maintaining scalable web applications. Proficient in full-stack development using JavaScript, Python, and cloud-native services. Passionate about clean code, continuous learning, and solving real-world problems with technology.

Technical Skills

Languages: JavaScript (ES6+), Python, Java, SQL

Frameworks & Libraries: React, Node.js, Express, Django, Flask

Databases: PostgreSQL, MongoDB, MySQL

DevOps & Tools: Docker, Git, GitHub Actions, Jenkins, AWS (EC2, S3, Lambda), CI/CD

Testing: Jest, Mocha, Pytest

Other: REST APIs, GraphQL, Agile/Scrum, Unit Testing, TDD

Experience

Software Developer | ABC Tech Solutions | San Francisco, CA | Jan 2022 - Present

- Developed and maintained RESTful APIs in Node.js and Express used by over 50,000 users.
- Migrated legacy frontend codebase to React, improving load times by 30%.
- Integrated CI/CD pipelines using GitHub Actions and Docker, reducing deployment time by 50%.
- Collaborated with cross-functional teams in Agile sprints to deliver key features on time.

Junior Developer | XYZ Web Services | Remote | Jun 2020 - Dec 2021

- Built internal tools using Django and React to automate reporting tasks, saving ~10 hours/week per analyst.
- Wrote unit and integration tests with Pytest and Jest, improving test coverage to 85%.
- Contributed to database schema design and performed query optimization in PostgreSQL.

Projects

Portfolio Website: Personal site to showcase projects and blog posts. Built with React and hosted on Netlify.
georgethompson.dev

Open-Source Contribution - Flask REST API Template: Contributed authentication and error handling modules to an open-source Flask boilerplate.

Education

B.S. in Computer Science | University of California, Berkeley | Graduated: 2020
